COMPACT CAMCORDER CASES

To find the best match for your equipment
visit **Kata online Bag Chooser:**
www.kata-bags.com

The CCC Camera Case Family is designed to carry and protect pro camcorders with battery & lens installed. Engineered to embody perfect balance, the CCC's are very light weight yet highly protective cases. The streamlined ergonomic shape keeps the center of gravity close to your body, and eases the burden when carrying. The Insertrolley can also be added as wheel along transportation. The double flap top opening ensures quick top handle grip access to the camcorder, which allows a mini light to stay installed during transport as the flaps will zip around it. The entire content is protected by water tight zippers. Ultimate protection for the delicate area of the viewfinder, lens and mic is provided in the structural shape which expands to cocoon these components and the aluminium stave which is embedded in the top flap. Included dividers and support cushions enable customization of the space to meet specific needs. Additional storage is available in ample internal and external pockets.

*Aluminium stave reinforces top flap to protect viewfinder and on-camera mic.

Ergonomically shaped curved contour and six layers of protection safeguard the camera.

Insertrolley connection option allows you to choose alternative transport modes.

APSS - Advanced Padded Shoulder Strap NSS - Non Slip Shoulder Strap

On one shoulder or across the chest, the double-sided APSS & NSS have a unique curved shape that prevents them from digging into the wearer's neck while offering optimal weight distribution.

NSS

APSS

Camera Shoulder Strap with Double Camera Clip (DCC) (Sold Separately)

Interlocking Click handle.

Water tight sealed zippers.

Sturdy transport front grip.

Padded external pockets

Dual zipper quick opening & top handle grip access to camcorder.

Customize the interior to fit your needs using dividers to place your camcorder in optimal position, and support cushions under viewfinder or lens.

THE MCC-2A

The MCC-2A is designed to hold a large pro camcorder with battery & lens installed. Additional storage is available in the 2 large padded pockets front and rear, 1 full length side pocket and 1 small flat pockets on the reverse side. Inside the side pocket, a designated tripod plate pouch can be found as well as a small set-up card pocket is integrated in the top flap.

Name: MCC-2A Order Code: KT VA-222-2A

Weight		5.5 lbs	2.5 kg	

THE HD-CC-3

The HD-CC-3 or Maxi HD Camera Case features ultra peripheral TST protection for the delicate and expensive equipment inside with an emphasis on the viewfinder and microphone area. An extra long external padded zippered pocket located on the right side of the bag can be divided into 2 or 3 separate compartments to meet your exact accessory needs, while the adjustable tripod plate pocket can be situated wherever most convenient. The case includes shock buffers and Modi-Vers dividers that allow the user to configure the main compartment according to personal preferences. 4 more designated pockets will store tools and personal effects while providing quick and easy access.

Curved Thermo Shield reinforces top flap to protect viewfinder and on-camera mic.

Ergonomically shaped curved contour and six layers of protection safeguard the camera

Height	16.5"	42 cm	14.1-9.4"	36-24 cm
Weight	12.3 lbs		5.6 kg	

THE TCCT

The TCCT meets the strict new airline regulations for carry-on bag size*. And its modularity means that when you land it adapts to hold your fully assembled camera in everyday use. It holds the camera with the battery removed; in some cases the viewfinder must be removed and with extremely large cameras the lens must be removed as well. The disassembled parts go into padded pouches in the case.

To expand the case to its working position, the TCCT has a compartment that lengthens the case and a side compartment that makes it wider. The case and the extended compartments are padded and rigid at the same time, to protect their delicate contents. The detachable trolley (included) makes it easier to transport the bag through the airport. In narrow check posts (security areas), the trolley can be removed in order to fit Airline Regulations Measuring Box. *Due to constantly changing airline regulations, please check with your carrier prior to departure.

On Board

These bags meet the strict new airline regulations for carry-on luggage size. Due to constantly changing airline regulations, please check with your carrier prior to departure.

Name: TCCT Order Code: KT VA-014

Full opening for easy access to large camera configurations

Padded mesh pockets for flat items like filters, PDA etc.

Service compartment can be divided and organized to fit all extra gear like batteries, charger, cables, lenses and many more.

GDC MULTI CASE for HDV/DV camcorders such as the Canon XH A1, G1, Sony Z1, V1, Panasonic HVX200 & similar with laptop and many accessories. The MC-61 Multi-Case is the perfect companion for the genuine field digital videographer. It combines all you need in one case: It offers the option of carrying your camcorder with matbox and all other related equipment, combined with a laptop, professional and personal accessories. It fits each piece of equipment and gear in its own designated compartment, featuring a level of protection you haven't seen before provided by the TST and the well padded sides of the bag. Multiple and ergonomically perfected carrying possibilities – The B shaped shoulder strap, the Click handle and the Insertrolley option (Insertrolley not included).

MC-61 with Insertrolley

SHELL-03

To find the best match for your equipment
visit [Kata online Bag Chooser:](http://www.kata-bags.com)
www.kata-bags.com

Name: Shell-03 Order Code: KT VA-2003

Shell-03	External Max. Size		Internal Main Compartment	
	Length	Width	Length	Width
	17.3"	10.6"	16.5"	8.7"
		27 cm	23 cm	7.9"
			2.0 lbs	0.9 kg
				20 cm

The Shell-03 has a unique TST Clam Shell design which offers ultra protection. Using the Modi-Vers divider system, the case can easily be adjusted to fit DV camcorders such as the Sony V1, FX1, Panasonic DVX100 or Canon XH A1, G1 & similar (check bag chooser) with related accessories. An internal padded mesh pocket provides extra storage possibilities without compromising the protection of the camera. KATA's patented "Click" handle allows for quick closure as well as for comfortable carrying. The fully padded ergonomic shoulder strap (BSS) can be attached to the DPB directly or by its snap hooks, creating an optimal User-Case-Strap angle.

CAMCORDER CASES

To find the best match for your equipment
 visit Kata online Bag Chooser:
www.kata-bags.com

KATA's CC Compact Cases feature TST rugged protection to provide the ultimate safeguard for the delicate equipment within. A spacious main compartment with modular internal division will accommodate camera and accessory set-up while the full length external padded pocket will provide additional storage space. If additional division is necessary, KATA's Modi-Vers Kits can be purchased. The lid is secured by a wide "hook & loop" fastener and a side release buckle. One pull allows for a quick full opening of the parallel zipper set. BSS Shoulder Strap is included as well as a padded Mesh-Grip handle. Except for the CC-190 all the cases are Insertrolley compatible.

Each bag (except for the CC-190) can easily be attached to the KATA Insertrolley or connected to most luggage trolleys for easy wheel along transport. Even when connected, the functionality and accessibility are not compromised.

Each bag is designed to provide a compact fit for specific camcorder models, but can also accommodate a smaller camcorder with mounted accessories such as external mic or matbbox.

CC-195

CC-193

CC-195

Modular dividers allow set up for customization

Full length external padded pocket

Front and rear rigid TST protection

Sturdy padded carrying handle.

The OC Organizer Cases are designed to withstand harsh use in any environment. Kata's TST technology on the front of the bag and the honeycomb reinforced circumference provide ultimate protection for the gear within. The cases feature two full sized compartments: The first deep compartment is for the HDV/DV camcorder and related equipment. If additional division is necessary, a Modi-Vers Kit is included. The second shallow compartment fits a laptop or paperwork. A large external padded pocket for personal effects and an internal accessory pocket panel will allow for additional storage solutions. 2 straps are available to connect a small tripod to the exterior of the cases. Carrying options include strong padded handles, a BSS shoulder strap and Insertrolley option. The OC-82 fit cameras such as Canon GL2/XM2, Panasonic DVC30, JVC HD1 and Sony A1 with accessories, or a matbox kit. The OC-84 fit cameras such as Canon GL2/XM2, XHA1/G1, Sony A1, V1 and Panasonic DVC30, DVX100 with accessories, or a matbox kit. Insertrolley is included. The OC-84 is supplied with individual laptop case and an Insertrolley.

Kata's Waist Shoulder Bags are sturdy, TST safeguarded cases that provide rugged protection when working in harsh conditions. Ergonomically designed to allow you to "shoot from the hip" without taking the case off, a contoured shape allows for a closer center of gravity to the body, while two DP Buckles ensure correct Case-Strap-Carrier angle. An ergonomic Non-Slip Shoulder strap opens away from the body by a quick release buckle. A 3D hip pad with a removable concealed hip belt supports and helps distribute weight. (Can also be used as a connection point to Kata's Insertrolley.) Supplied with the Modi-Vers dividers to allow customized set-up of the large main compartment to suit specific needs, It features 3 large pockets, 4 flat pockets and the tying loops provide additional storage solutions. WS-604 will fit a Mini-DV camcorder such as the Canon GL2/XM2, Panasonic DVC30, Sony PDX10 & similar. WS-606 will fit an HDV/ DV camcorder such as the Sony V1, FX1, Panasonic HVX200, Canon XH A1, G1 and similar.

WS-604

WS with Insertrolley and Tripod attachment (not included)

BACKPACKS

To find the best match for your equipment visit **Kata online Bag Chooser:**
www.kata-bags.com

KATA's Backpack family is comprised of a diverse range of products, each designed to meet specific working scenarios. Though each individual backpack is a complete unique solution within itself, all the family share the practical essences:

1. Ergonomic harnesses system to provide correct weight distribution.
2. Hierarchical gear arrangement to ensure immediate access to the camcorder.
3. Ultimate protection perfectly balanced to maintain lightweight cases.
4. Modular set-up capability to match specific individual gear arrangements.

See product page for individual details regarding each backpack.

HB-207

1. Main compartment is set up with ample dividers that can easily be rearranged to meet your equipment requirements.
2. Multiple external pockets provide additional storage solutions for accessories or personal gear.
3. Easy handle grip access to camcorder.

BP-502

Heavy duty padded rear laptop compartment

Sturdy top grip handle.

GRIZZLY-3

Well padded adjustable shoulder straps.

Adjustable sternum strap.

Lower back cushion support.

Six point adjustable waist belt to fit all sizes.
 *Not in all models.

Dual tightening buckle with four straps which surrounds the hip for perfect fitting.
 *Not in all models.

← R-102/3 →

Camera Straps

Camera Straps are attached to the D-rings on the backpack harnesses to connect to a camera or camcorder and take the load off your neck. The 2 straps can easily be turned into a regular camera strap when needed.

Tripod Holder

Each backpack features an individual tripod sling and connection method.

Insertrolley

The Insertrolley sleeve provides the option to make the case wheelable and easy to transport by adding the Kata trolley. (not in all models)

Elements Cover

An emergency Elements Cover to protect your backpack and equipment in inclement weather: black side out in rain or snow, and in sun reverse to silver for heat reflection.

EPH

The Kata backpacks are part of the EPH system which means that they can be integrated with other Kata products to create a new carrying combination.

HB-207

Omega

Carrying system easily tucks away when needed.
*Not in all models.
